Restored

15,512 of 100,000 Trees Planted

Mahalo nui loa!

Your contribution has helped plant more than 600,000 native and endemic Hawaiian Legacy Trees.

These trees are planted along wildlife corridors to provide native habitat for some of Hawaii's rarest birds like the endangered 'io (Hawaiian hawk), pueo (Hawaiian owl), and Hawaiian nene goose.

Mahalo nui loa for your valuable contributions to The Hawaiian Legacy Forest!
