FIRST TO SERVE®

## KAHALA HOTEL & RESORT ANIMAL WELFARE POLICY STATEMENT

The Kahala Hotel & Resort is committed to responsible business practices across all operations. This includes an ethical obligation to ensure the safety and well-being of the dolphins residing in the ocean fed lagoons on the hotel property. To achieve this, the bottlenose dolphin programs and operations are owned and operated by leading marine mammal veterinarians and are subject to independent third-party certification by American Humane through its [Humane Certified™ program](#). American Humane's science-based animal welfare standards, informed by an independent collection of world-renowned experts in the fields of animal science, help to ensure that the dolphins residing on our property are afforded excellent welfare and humane treatment. Our guests deserve the confidence of knowing that Dolphin Quest at The Kahala Hotel & Resort has met the Humane Certified™ standards that are rightly expected by the public.

The Kahala Hotel & Resort is honored to host Dolphin Quest's critical work to advance global marine conservation initiatives through research, funding, education, and inspiring the next generation of animal advocates. Through Dolphin Quest's programming, and by having the dolphins on display in a natural lagoon setting, we enable our guests to appreciate animals that they might otherwise never see in person, educating them about the importance of Earth's animals and the need to preserve them for future generations.
